Summary

I'm a final year graphic design student at Arts University Bournemouth. Currently, I'm a generalist - I enjoy motion design, branding, web design, and typography. I can turn my hand to a lot of different areas, and I'm always up for trying something new. My design manifesto is simple: Good research, good ideas, and good craft are equally as important, working in a communicative team will always be more successful than working alone, and every problem has a solution. I am looking for work as an intern or junior designer.
